

QUALITY POLICY

Date : 12.08.2018

1. Vanaz Engineers Ltd. manufactures products like Cylinder Valves, Regulators, Adaptors, CNG / LPG kits and auto components like Synchro rings, Bearing Caps, etc., where reliability of performance is important. We commit to identify the needs and expectations of the customer for supplied products.
2. Vanaz determines external and internal issues and requirements of internal and external interested parties that are relevant to its purpose that affect its ability to achieve the intended outcomes of its Quality Management System.
3. Vanaz shall therefore,
 - a) establish and implement quality objectives and periodically review them to confirm that they are leading to improvement in the company's performance.
 - b) continually improve production processes to enhance customer satisfaction.
 - c) update the technical expertise of our personnel and encourage them to actively participate in the ongoing continual improvement programme.
4. Vanaz commits to satisfy applicable requirements of the Quality Management System and continually improve its effectiveness.

(M.S. Khandekar)

Chairman & Managing Director
